Impact of the Partial Government Shutdown on the York Housing Authority

The partial Federal Government shutdown which includes the Department of Housing and Urban Development (HUD) among the nine Federal agencies that are impacted by the shutdown. There has been concerns raised about the continuing operation of the York Housing Authority (YHA).

Please be assured that YHA plans to continue all normal activities. YHA's main office and property management offices are open and staffed to serve our residents, clients, landlords, and the community. YHA public housing and Section 8 programs are funded until the end of February; however, at this time YHA has not received notification of funding for March and subsequent months.

YHA commits to updating our website and Facebook page as more information becomes available.

Regina S. Mitchell
Executive Director
